

# New. Improved. Convenient.

Your online banking  
now has a new  
look and feel.

We've made improvements to First State Bank online banking — helping you stay connected to your money, with added convenience and confidence.

When you sign on, you'll notice:

## **An optimized experience**

Whether you access online banking from a desktop or tablet — the experience adapts to your device — and includes touch-enabled capabilities.

## **Improved navigation and functionality**

Our new, more intuitive navigation and design provides simpler access to key features, making it faster to find the information and tools you need.

## **Simplified payments**

Our new bill pay dashboard allows you to pay multiple payees at once, change funding accounts based on payees, view recent payments, and track payments coming due — all from one screen.

Rest assured, you'll find the same advanced security you know and trust. And all your payment information remains intact.
